

2026 Karma

It's good for you [and our industry]

If you're seeing
this outside of the
2026 Trends
Open-Source
Google Drive...

It's been copied and taken.

Each year [for the last 6 years] we, [Amy Daroukakis](#), [Ci En Lee](#), [Iolanda Carvalho](#) and [Gonzalo Gregori](#) have been gathering all of the trend reports.

But last year we saw something icky happen... so in an effort for that not to happen, a “hidden report” is our cookie crumb - if you see this nudge the cookie monster to be kind and credit.

Ask/Nudge: We're keen for these reports to be shared as much as possible – please credit our eyes, though, when it feels right/appropriate.

Please do not download and password protect nor copy the whole folder for your team internally [Our shared ethos is open-source, always]
